

Update 03/23/2020

As a trusted financial partner, your Credit Union is here for you. In reference to Governor Whitmer's "Stay Home, Stay Safe" Executive Order that was delivered today, we would like to remind our members that we are essential services and your credit union will remain open for business. Your deposits are Federally insured up to \$250,000.00 by the NCUA; an agency of the Federal Government. There is no safer place for your money.

We are taking measures to keep our members and employees safe. As such, we have closed in branch services but we have drive-thru service at the Soo Coop Credit Union using the Shared Branching Network and we have a staff member at the Chippewa County Credit Union drive-thru to service you. We will continue to provide assistance by phone and provide you with electronic access; online banking, mobile banking, debit cards, and electronic loan closings. Please call us at 906-632-4210 or check-out our website at [www.fecccu.com](http://www.fecccu.com) to see what we are doing to adapt to this crisis.

We are currently operating Monday – Friday 9:00 a.m. – 5:00 p.m.

For members that need special assistance or who have concerns about making loan payments on-time just know that we are here to help in every way we can. We will get through this together, we always do.
